

## JOINING THE BLOCKCHAIN ALLIANCE EUROPE

In exchange for an annual membership fee of 500 EUR, the BAE organisation provides its members with several services:

### 1. BENEFIT FROM SUPPORT SERVICES FOR EU TENDERS

We have released a new service line and partnered with Global Disruption to help our members navigate various tenders by validating their business ideas, connecting relevant parties, and successfully submitting a registered tender. This expert team will support all our members who have paid the membership fee with discovering relevant EU tenders and grants. Besides, every member can also negotiate a favourable deal with Global Disruption to help them write and submit the proposal and report when the tender or grant is obtained.

### 2. BE A PART OF THE BLOCKCHAIN BUSINESS NETWORK (BBN) FOR FREE.

The BBN will be set up to develop new forms of trust services available to European companies and organisations. It will follow the guidelines and standards of the European Blockchain Infrastructure (EBSI). The first example of using the BBN will be trusted lists of members, partners and experts of Blockchain Alliance Europe. You can find out more about BBN on [this link](#).

### 3. GET FREE PROMOTION ON THE BLOCKCHAIN ALLIANCE EUROPE PLATFORM

We first provide each member with a presentation on the Blockchain Alliance Europe **website**. This is on both the [landing page](#) and the [members' section](#), where you will find a brief company description and a link to your website.

Our team also compiles a presentation **blog** for each new member, emphasising the services you offer to the community. [See example](#).

Besides, we promote and repost all your latest news and significant milestones on Blockchain Alliance Europe **social media channels** [Twitter](#) and [LinkedIn](#), where we have built a solid and relevant audience.

We also feature your blogs in the Blockchain Alliance Europe **newsletter**.

## 4. BE A PART OF EVENTS ORGANISED BY BLOCKCHAIN ALLIANCE EUROPE

We strive for representatives of BAE members to have **speaker roles and present their projects** at the events organised by Blockchain Alliance Europe, all in compliance with the terms and conditions previously agreed by BAE members and the organisation board.

Your company or startup is included in presentations by the BAE president. (With the logo and, when possible, also with the short description.)

You can participate in events that BAE organises by the terms and conditions agreed by the organisation board.

Usually, the events we organise are international and free of charge, resulting in reaching as many audiences as possible and receiving a lot of traction. [See example.](#)

## 5. BE A PART OF EVENTS ORGANISED BY PARTNERS OF BLOCKCHAIN ALLIANCE EUROPE AND GAIN NEW COOPERATIONS

BAE has an expanded partner network to provide our members with more benefits for various events at home and abroad.

- Promotional codes for tickets
- Better terms and conditions for speakers positions, sponsorships and exhibitions.

Apart from that, we also pride ourselves on a **significant network of official and unofficial partners**. We help you connect and form a new connection that might help your business grow.

## 6. BE AN ACTIVE MEMBER OF THE BAE COOPERATIVE

In our organisation, we strive to involve our members and accept and develop their ideas actively. Do you have a suggestion for BAE to add a new service? Do you know a particular project which could be beneficial to the whole blockchain community? In that case, you are more than welcome to share your thoughts and ideas with other BAE representatives through the **BAE Telegram channel**.

For anyone who shares ideas with Blockchain Alliance Europe and finds our work meaningful but is not yet ready to become a full member, there are other options for our cooperation possible. If you are unsure if you need BAE services, you would like to be a part of the BAE community and **become a COMMUNITY MEMBER**. Please get in touch with us at [info\[at\]blockchainalliance.si](mailto:info@blockchainalliance.si).
